## INTEREST

When I'm not coding, I spend a significant amount of my time exploring other areas of IT. I maintain my server (Ubuntu Server), repair electronics, and enjoy working with Arduino Uno. I like dynamic games as well as those that require thoughtful consideration, so you can often find me on the basketball court, at the ping-pong table, or playing chess and pool.

I am passionate about the world of Fantasy in every aspect, from reading books to playing RPGs, both tabletop and electronic.
